EXPERIENCE

Tortoise

SDE - Founding Engineer

Oct 2024 - Present, Gurgaon, India

- Rebuilt the end-to-end AI-powered product cataloging pipeline automating scraping, variant extraction, compatible product mappings, and a device recommendation engine.
- Solo-built the internal CX & KAM Support Dashboard, eliminating a recurring class of engineering escalations and significantly cutting query resolution time for customer-facing teams.
- Designed a multi-source data import system that syncs external data into the core DB and auto-triggers downstream business workflows, replacing a manual error-prone process.
- Owned the workflow execution engine handling full lifecycle management, state transitions, and reliable execution across diverse business processes.
- Carried consolidation of 4 dashboards into a monorepo (Turborepo + GitHub Actions CI/CD) and migrated legacy React/Redux codebases to Next.js, cutting deployment overhead significantly.
- Built Tortoise's UI Design System from scratch using Atomic Design principles enforcing UI consistency and reducing per-feature development time across all dashboards.

Adaapt AI (formerly Terobots)

SDE - Founder's Office

June 2023 - Sept 2024, Remote, India

- Engineered a comprehensive Bot analytics, summary and reports functionality across organizational hierarchy & stakeholders.
- Architected a robust authentication system with granular access control(GAC) using HOCs, Next.js middleware, cookie management, and Redux Toolkit for state handling
- Engineered a scalable LinkedIn Automation microservice using Python FastAPI, MongoDB, and automation libraries, enabled sales leads automation

PROJECTS

Digiwhistle

Influencer Management Platform

[Link](#) [GitHub](#)

- Built a fully responsive platform for managing influencer profiles, brand campaigns, and employee operations.
- Secure Authentication & Role Management using Next.js middleware, Higher Order Components, and Redux Toolkit.
- API-Driven Influencer Stats from social media platforms.
- Brand Campaign Management with multi-influencer collaboration and engagement tracking.
- Automated Financial Operations via Zoho Books and Razorpay APIs.

SUMMARY

GET THINGS DONE Developer!

SKILLS

Front End	React.js, Next.js, Tailwind CSS, Redux Toolkit, HTML, CSS
Back End	Django REST, FastAPI, Node.js
DBMS	Postgres SQL, MongoDB, Chroma(vector) DB
DevOps	Docker, Kubernetes, CLI, Azure
Languages	Javascript, Typescript, Python, C/C++
Misc.	Turborepo, Figma, Cursor, Claude code
Soft Skills	Ownership, Accountability

EDUCATION

National Institute of Technology (NIT), Jalandhar

Punjab, India

Bachelor of Technology

GPA: 7.92

Delhi Public School, Patiala

Punjab, India

Higher Secondary Graduate

95 %

POSITION OF RESPONSIBILITY

- Marketing Lead - Google Developer Student Club NIT Jalandhar
- Captain - Men's Lawn Tennis Team
- Joint Secretary - Mega Boys Hostel - A NIT Jalandhar

ACHIEVEMENTS

- Won 2nd Prize in HackMOL 3.0 Hackathon & 13th position in HackMOL 2.0
